-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3662

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. The Specification is objected to under 37 CFR 1.71 in that it fails to teach adequately how to make and to use the invention.

On the final line of page 7 of the Specification (third line of section [0014]) through the second line of page 8 of the Specification (remainder of section [0014]), Applicant clearly states that the "guidance algorithm" for the "Guidance and control module 22" is "disclosed" in the Ching-Fang Line reference cited there. Please note that there is no incorporation of the content of this publication by reference, nor is there a recitation of the essential matter in the Ching-Fang Line publication in the disclosure. Thus, the specification fails to teach adequately for one of ordinary skill-in-the-art to be able to make and/or to use the invention. The omitted matter that is "disclosed" in the Ching-Fang Line publication is essential to the invention.

Any attempt to amend the Specification to include the essential disclosure that is in the Ching-Fang Line publication would constitute an attempt to add new matter to the Specification.

3. Claims 1-58 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the

invention. Please see the remarks with the objection to the Specification in section 2 above.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited references are of general interest for showing the general state of the prior art.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernarr E. Gregory whose telephone number is (571) 272-6972. The examiner can normally be reached on weekdays from 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas H. Tarcza, can be reached on (571) 272-6979. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
